

Hello! I'm Akavity Mikhail

I have a diploma of graduation from the university, closed debts for budget education and military service. I have 2 years experience as an engineer. During this time, I took a front-end course, where I studied various technologies and participated in educational projects. I also learned how to work in a team and do a lot of work in a short amount of time.

Age: **24**

Status: **Looking for a new job**

My services

As a programmer, I am just starting this journey from the position of front-end developer.

Front-end development

Code review

My skills

I am a quick learner and have skills like:

JavaScript 80%

TypeScript 50%

HTML 70%

CSS 60%

Also I have some experience with

Webpack

SCSS

Figma

React.js

Node.js

Git

My education

Student

Belarusian State University (BSU) (3 years 10 months)

During my studies at BSU, I took courses in physics, mathematics, programming, probability theory, classes in the specialty 'Radiophysics', and a number of humanities. At the end of the university I have a specialty of radiophysics.

Front-end school (student)

RSSchool (9 months)

During the course, I completed the tasks of developing applications according to the layout from Figma, on-page applications (SPA), working with the server (Web API), working in a team. As a result of the course, a certificate was received.

My experience

Engineer

INTEGRAL (1 year 9 months)

My duties as a design engineer include the development, modification, coordination of design and technological documentation.

Testimonials

Feel free to contact anyone from this list of my former colleagues or mentors to get testimonial about me as a developer and team member

Dzimitry Lvou

Front-end developer, mentor at RSSchool
