Hello! I'm Akavity Mikhail

I have a diploma of graduation from the university, closed debts for budget education and military service. I have 2 years experience as an engineer. During this time, I took a front-end course, where I studied various technologies and participated in educational projects. I also learned how to work in a team and do a lot of work in a short amount of time.

My services

As a programmer, I am just starting this journey from the position of front-end developer.

Front-end development

Code review

My skills

I am a quick learner and have skills like:

JavaScript

TypeScript

HTML

CSS

Also I have some experience with

Webpack   SCSS   Figma   React.js   Node.js   Git

My education

Student

Belarusian State Univercity (BSU) (3 years 10 months)

While i studied at BSU, I took courses in physics, mathematics, programming, probability theory, classes in the specialty 'Radiophysics', and a number of humanities. At the end of the university I got a degree in radiophysics.

Front-end school (student)

RSSchool (9 months)

At the time of the the course, I completed the tasks of developing applications according to the layout from Figma, on-page applications (SPA), working with the server (Web API), working in a team. As a result of the course, a certificate was received.

My experience

Engeneer

INTEGRAL (1 year 9 months)

My duties as a design engineer include the development, modification, coordination of design and technological documentation.

Testimonials

Feel free to contact anyone from this list of my former colleagues or mentors to get testimonial about me as a developer and team member

Dzimitry Lvou
Front-end developer, mentor at RSSchool
